

ESK WATER RESERVOIR PROJECT UPDATE

July 2022

What's happening?

Urban Utilities is excited to announce that our delivery partner, **Diona**, will design and construct the new water reservoir and pipeline at Esk. Located at 104 Highland Street, the new reservoir will improve the reliability and resilience of the water supply network servicing the Esk township.

Off to a great start

As part of the detailed design phase of the project, Diona is undertaking further investigative works in your area. These works include surveying boundaries, service locating, and geotechnical investigations.

What's next?

Construction is now expected to **commence early 2023**, lasting approximately eight months, subject to weather and site conditions. We will keep you updated as the project progresses, and we will provide advance notice for any activities that may impact you. In the meantime, you can register for project updates via the website or by scanning the QR code provided ➡
