

 UrbanUtilities

**WATER RANGER**

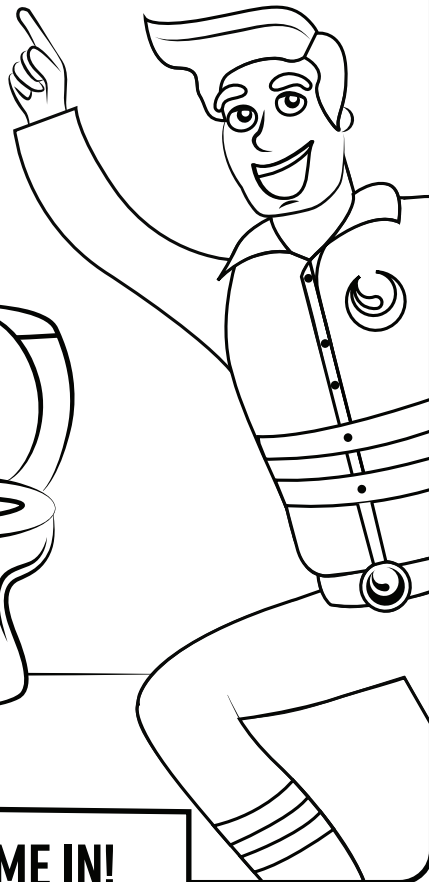

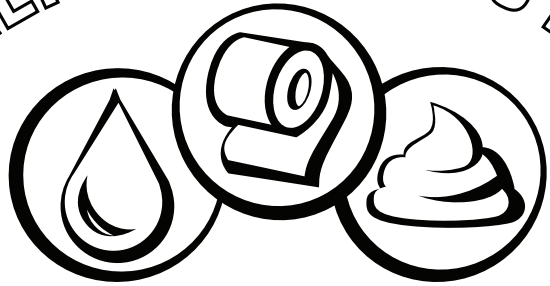

**VS.**

**BLOCKA**

Urban Utilities visited your Kindy today!  
Today we learnt about how precious water is, how important it is  
to save water and what we can (and can't) flush down the loo!

**ADULTS - MORE INFORMATION FOR YOU ON THE BACK!**

ONLY FLUSH THE 3 P'S

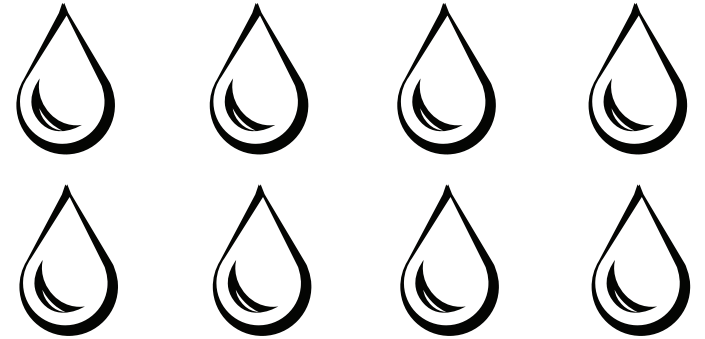

COLOUR ME IN!

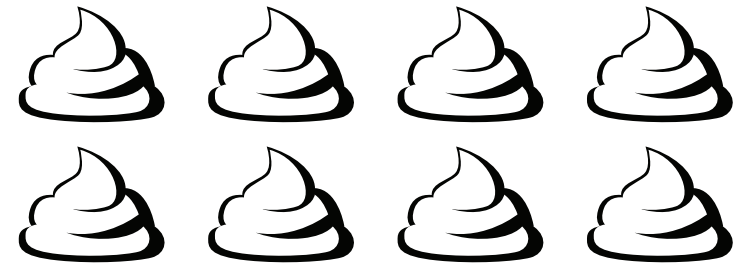

## COUNT AND COLOUR

Read each number and colour the correct amount of objects in each row

## FIND YOUR WAY THROUGH THE SEWER MAZE

Can you find your way  
from the loo to the Urban Utilities  
Sewage Treatment Plant?

**BLOCKA IS A CREATURE MADE UP OF ALL THE THINGS WE SHOULDN'T FLUSH DOWN THE TOILET AND PUT DOWN THE DRAIN.**

**CAN YOU CIRCLE THE THINGS WE CAN FLUSH DOWN THE TOILET?**

UrbanUtilities

Urban Utilities provide world class drinking water straight to your tap and remove and treat your wastewater. Each year, our Urban Utilities Education Team offers a diverse range of learning programs, educational experiences and support for our young community about water and wastewater services in South-East Queensland. Awareness and connection to water and our local urban water cycle is vital for a secure water future for our region. We all have a role to play to ensure our most precious natural resource is available for future generations.

Empowering people to become 'Water Warriors' is what we are passionate about. We can all become 'Water Warriors' by limiting showers to 4 minutes, half-flush for pee, watering the garden in the early morning/late afternoon, only flushing the 3P's (Pee, Poo & Paper) & turning the tap off while brushing teeth.

### ***MORE INFORMATION***

If you would like more information, you can find videos and updates on our new hub 'Watertalk'.
