Project Update: Construction works at Bartley's Hill Reservoir

What's happening?

Our delivery partner, **Diona**, is currently completing ongoing rehabilitation works at one of the **Bartley's Hill Reservoirs**, between **Morgan Street** and **Sykes Street, Ascot**. Construction has been progressing well, and installation of the new roof has now commenced.

What's next?

Construction activities to complete roof installation will continue, and stormwater drainage works will soon commence. To enable our site crews to meet the required timeframes for these works, Saturday works have been extended from **Saturday 22 March 2025**, for up to **three weeks**.

Works hours:

6:30am to 5:00pm, Monday to Friday until October 2025, and **8:00am to 3:00pm on Saturdays** for up to **three weeks** (subject to weather and site conditions).

What to expect:

- **Crews, trucks, and equipment** on the road, footpath, and within the reservoir site. Safety barriers will be in place to ensure everyone's safety.
- **Carpark closure**. The carpark in Massey Street, at the entrance to the Bartley's Hill Reservoir, will be closed for the duration of the project (until October 2025).
- **Noise and dust** from construction and machinery. We will minimise these where possible.
- **Changed traffic conditions** including temporary road closures and stop/go traffic control will be in place as required. Traffic controllers will be on-site to ensure the safety of road users and pedestrians.
- **Restoration**. On completion of works, we will restore all work areas as close as possible to the original condition.

We thank you for your patience during this important work.

For further information, contact Diona on **1300 13 13 38** or **UUTeam@diona.com.au**
